

Join us for a series of Digital Humanities

DIGI WORKSHOPS

DATA VISUALIZATION

Presented By: Katie Kuiper, PhD Candidate in Linguistics

What can you do with all that data? This series of workshops will introduce a number of methods for visualizing data and creating compelling images that match your skills. We will introduce the concepts using web tools, Excel, Tableau, and R.

These sessions are open to all and are intended for beginners. No experience necessary. Each session will include a different topic. Attend an intro session then choose the others that best fit your research agenda. Sessions are held on Wednesdays at 4 via Zoom.

Oct. 28th: Intro to data visualization resources at UGA and beyond

Nov. 4th: Bar graphs and histograms in Excel, Tableau, and R

Nov. 11th: Scatterplots in Excel, Tableau, and R

Nov. 18th: Area graphs in Excel, Tableau and R

WEDNESDAYS • 4:00
